AUCTION FOR ANIMALS

NOVEMBER 16, 2019

SPCA Florida is a no-kill shelter. Our long-term goal is to make all of Polk County no-kill by 2025. Your support will help us make this dream pawssible!

The sordid reality

Polk County ranks number one in Florida for most animals euthanized, and the county's percentage is among the worst in the entire nation. Kittens are the group at highest risk of euthanasia.

No-Kill Kitten Seasons

Every summer, Polk County experiences a tremendous amount of kitten births. They arrive at Polk County Animal Control and SPCA Florida in the hundreds, and these precious lives that have barely begun are at the greatest risk of euthanasia.

To stop this, we must increase spay/neuter efforts in the county to decrease the numbers of kittens born.

We work for no-kill kitten seasons through increased collaboration between Polk County Animal Control, Humane Society of Polk County, local veterinary clinics, and shelters across the United States. The dream can become reality - if everyone works together.

Save the Bully Breeds

After kittens, the "Bully Breeds" are next in line to be euthanized. We are transporting dogs to shelters in Canada where they aren't stigmatized and have a better chance of finding loving families and forever homes.

Save the Heartworm Positive Dogs

At Polk County Animal Control and many shelters, these dogs are never given a chance to be adopted. We are working hard to raise more funds to treat more heartworm positive dogs, and give them a chance at forever homes.
